COVID SOLUTIONS

How can Stanford's help get your minibus back on the road in the safest way possible.

WHAT HAVE WE BEEN UP TO LATELY?

In these past few months we have seen lots of different types of vehicles leave our blue gates, from PTS vehicles to luxury family minibuses. We have kept our team of excellent coachbuilders incredibly busy, here's a selection of just a few!

Peugeot Boxer PTS Vehicle

With the demand for ambulance and PTS vehicles on the rise, we've carried out quite a few of these conversions lately. This particular Peugeot Boxer has been converted for one of our long-term clients, S.M.T Ambulance Service. S.M.T are a

CELEBRATING 25 YEARS: 10 OF OUR MOST MEMORABLE MOMENTS

The Chelsea Pensioners

The Renault Masters that we converted for the Royal Hospital Chelsea.

London NHS Hospitals

The Mercedes Sprinter ambulances that we converted for the NHS.

Civilised Car Hire

The tour bus that we converted which featured a hot rod paint design.

private ambulance service that provides a nationwide secure transport service for both young persons and vulnerable adults. They have a fleet of secure cell vehicles and PTS ambulances.

Their latest vehicle featured piped oxygen, removable seating, lockable overhead storage compartments, a stretcher ramp, a drivers screen with a blind, manual rear blinds and privacy tinted rear windows.

Luxury Family Mercedes Sprinter

Another exciting conversion that we have carried out in the past few months was the luxury family bus. We converted the Sprinter for the G family, a large family from Cambridgeshire, who were unable to all squeeze into a single vehicle. They wanted something special for the whole family and we made sure to make it happen!

The vehicle has a whole array of features, perfect for everyone. This included a smart television with Apple TV and a Bluetooth sound bar, Xbox console, LED colour changing roof lighting, USB charging sockets, luxury reclining passenger seats, a fridge, rear saloon curtains and an electric folding side step. [You can read the full story on our website here.](#)

1969 Ford Transit

The bespoke 1969 Ford Transit that we converted for our 20th anniversary.

Help for Heroes

The Renault Master converted for the Help for Heroes charity.

2012 Bus

The Burnt Tree / Enterprise Diamond Jubilee & 2012 London Olympics bus.

Royal Naval Association

The 3 Peugeot Boxers which were handed over at the Royal Naval base.

Andy's Bus

We converted a Lord's Taverners bus in memory of a SCW employee.

New Monaco Sprinter

The launch of our first New Generation Monaco Sprinter.

Jumbulances

Our jumbulances headed to the NHS Nightingale to assist COVID patients.

THE LATEST INDUSTRY NEWS

We understand that many of our customers are now sourcing electric vehicles therefore, we have launched the e-SCW range. Manufacturers are working hard to bring us new electric options for base vehicles that will be available from 2021, these include:

Mercedes eSprinter

Maxus e Deliver 9

Volkswagen e-Transporter & e-Crafter

Renault Master Z.E.

Most recently we have seen the launch of the Fiat e-Ducato and we are excited to announce that we will be carrying out the first 17-seat wheelchair accessible conversion on this vehicle.

STANFORD COACHWORKS' TOP PICK: THE MOBILE TRAINING VEHICLE

Our top pick for the October newsletter is the amazing Mercedes Sprinter mobile training vehicle converted by Rick and Steve.

The mobile training vehicle was converted for a client who wanted a space to store tools & equipment, hold training sessions and show presentations all whilst on the road. We made sure to include an awning so that our client can also utilise outside space when reaching their destination. A second bespoke Sprinter with the exact same specification is being converted for the client within the next few weeks.

The Features

- Mercedes Sprinter 314 L3H2 chassis
- High level centre table with 4x cup holders
- Lockable storage cupboard beneath table
- 3x stools with D rings & straps for storage
- Tool station work bench with drawers
- 40" smart TV with automatic HDMI switchover
- 240-volt inverter & battery capacity monitor
- External hook-up
- Rear saloon heating
- White LED roof lighting and lower blue LED lighting
- Exterior awning
- Boot space for extra storage

COVID-19 MINIBUS SOLUTIONS

The current COVID-19 situation has led us to produce a number of solutions to help get your minibuses back on the road. Due to social distancing measures, we understand that transporting a large minibus full of passengers will be a struggle. As a result of this we have designed a number of solutions to keep everyone as safe as possible and help you return to work.

L-shaped passenger COVID screen

Flat COVID screen

Driver and front cab passenger COVID screens

AN INSIGHT INTO SCW: MEET THE TEAM

Name

Miranda (Rindle)

Job Role

Production Administrator

How long have you been at SCW for?

6 years (this month!)

Favourite Hobbies

Walking with my chocolate Labrador Bisto, reading books and socialising with friends.

Favourite SCW Vehicle

The Ford Transit Custom for a local charity that had pink seatbelts and powder coating! I see it driving around all the time as I live close by to their centre.
