

FORD TOURNEO CONNECT

Wheelchair Accessible Conversions

STANFORD
Coachworks
BUILDERS OF LUXURY & ACCESSIBLE VEHICLES

Our Ford Tourneo Connect conversions can facilitate up to four passengers and one wheelchair.

OUR FORD TOURNEO CONNECT CONVERSIONS

At Stanford Coachworks, we understand that our customers may not always require a larger wheelchair accessible vehicle, that's why we have designed a range of smaller WAVs.

The latest edition to be added to this range is the Ford Tourneo Connect.

Specially designed fold-out ramp which sits inside of original vehicle flooring.

FEATURES

- **Available on the L2 Ford Tourneo Connect**
- **Specially designed fold out ramp which sits inside of original vehicle flooring (option for ramp to fold flat and allow use of luggage area)**
- **4 x passenger seats (option for 2 x additional tip and fold seats in the third row when the wheelchair is not in use)**
- **Single wheelchair position**
- **Wheelchair restraints with electroreels**
- **Option for wheelchair winch**
- **IVA test approved and certificate supplied**

This conversion featured a wheelchair winch, electroreels and wheelchair restraints.

The winch helps assist wheelchair users into the rear of the vehicle via the fold-out ramp.

Ask us about the option for your ramp to fold flat and allow use of the luggage area.

BENEFITS OF A SMALLER WHEELCHAIR ACCESSIBLE VEHICLE

- **Easier to manoeuvre if you are based in a city or a busy town**
- **Being a smaller vehicle, these conversions are usually preferred by families as they provide a similar environment to an ordinary car**
- **Drivers of smaller wheelchair accessible vehicles don't have to hold specialist D1 driving licences**
- **Smaller wheelchair accessible vehicles have lower roofs, meaning that they can be parked in most height restricted car parks**

Passenger cabin with fold-up tables.

Specially designed cut-in floor for wheelchair passengers.

Ford Tourneo Connect L2 with twin side load doors.

New design front cabin.
