OUR CONVERSIONS

The demand for production, television and music industry vehicle conversions has increased drastically over the past 10-years and at Stanford Coachworks we are prepared to design high-quality reliable vehicles which meet all of your specific touring requirements.

PRODUCTION VEHICLES	04
SPLITTER TOUR BUSES	08
SEATING CONFIGURATIONS	12
PREMIUM PASSENGER TOUR BUSES	16

DESIGNED TO MEET YOUR SPECIFIC TOURING REQUIREMENTS

PRODUCTION VEHICLE CONVERSIONS

ABOUT OUR PRODUCTION VEHICLE CONVERSIONS

Our production vehicle conversions can be carried out on a variety of different chassis. These conversions feature a separate rear compartment, accessible via the passenger saloon, with a fold-away LED illuminated dressing table, a roof-mounted clothing rail, 240-volt power and storage space.

Contact us to find out more.

Our production vehicle conversions feature a full dressing room in the rear compartment.

Conference style seating configuration.

Production area with dressing table stowed.

SPLITTER TOUR BUS CONVERSIONS

ABOUT OUR SPLITTER TOUR BUS CONVERSIONS

Our splitter tour bus conversions can also be carried out on a variety of different chassis. These conversions feature a separate large rear compartment designed to carry specialist production equipment. We can also include custom-built storage compartments and roof-mounted clothing rails.

Contact us to find out more.

This splitter tour bus conversion was carried out on a Volkswagen Crafter L2H2 chassis & includes our client's personalised signwriting.

Forward-facing seating configuration.

Rear equipment storage compartment.

SEATING CONFIGURATIONS

HOW WOULD YOU LIKE YOUR CONVERSION CONFIGURED?

We offer a number of different seating configurations for the passenger cabin's of our conversions.

For production vehicle conversions, we recommend a conference style seating arrangement, allowing easy access from the passenger cabin into the rear production area.

For our splitter tour bus conversions, a forward-facing seating arrangement also works really well.

Contact us today to discuss your passenger cabin layout options in further detail.

Conference style seating configuration with centre table and day bed fitted behind rear row of seats.

Forward-facing seating configuration with rear upper level storage shelf.

PREMIUM PASSENGER TOUR BUS CONVERSIONS

ABOUT OUR PREMIUM PASSENGER TOUR BUS CONVERSIONS

If you're looking for something a little more luxurious, our premium passenger tour bus conversions may be more suited to meet your requirements. These conversions focus on ultimate passenger comfort but can still feature small rear storage areas if needed.

If you're looking to take your conversion the extra mile, ask us about our Monaco-style luxury seating!

This production vehicle featured our Monaco-style seating, configured in a conference style arrangement centred around a table.

This premium passenger tour bus featured custom stitch seating with extra comforts such as embroidered cushions & blankets.

This conversion featured our Monaco-style seating with plenty of passenger space and fold-up tables & cup holders.

Comfort passenger seating with thick pile carpet.

Small LED illuminated dressing room at rear of vehicle.
